Press Release: Seattle WA. 18th April, 2019

STOP Rape or Assault!!

911 PROTECTOR™

Sexual Assault is at an all time high!

Every two minutes

An American is sexually assaulted

Assault can happen at any time, day or night, in broad daylight, a dark alley or parking lot. 911PROTECTOR™ will auto-dial 9-1-1 by simply clicking the 'Yes' button in our mobile app. No more fumbling around trying to dial 9-1-1....our app will do it for you.

We have also included a button called "Police Siren" designed to deliver a powerful police siren blast, if you feel you are being followed. This could cause a stalker to believe the police have been called and run away.

You are not alone, 911 PROTECTOR™ can help keep you safe.
